

TESLA POWERWALL Backup Package

Powerwall is a home battery system that turns your home's solar panels into an all day resource, increasing self-consumption of solar while also offering back up in the event of an outage. Powerwall enables more of your home's electricity use to come from solar, which enhances solar functionality and reduce energy cost.

- For Single Phase Meter
- 1 Active Wire + 1 Neutral Wire
- Less Complex Wiring Layout
- For Standard Home and Small Business

Fully Installed **\$1X,XXX**

Due to Powerwall global demand we recommend allowing 6–9 months for fulfilment of new orders. The challenges around supply chain and logistic delays are still-being felt and are likely to continue for the remainder of this year.

Join the Energy Revolution

Store

Store unused solar in Powerwall instead of sending to the grid

Control

Monitor and control your home energy with the Tesla App

Power

Your home is powered by solar 24/7

Protect

Your home is protected during a power outage
